Carroll School of Management

**Learn about
some of our
DEI initiatives!**

**DIVERSITY
IN
BUSINESS**

ABOUT US

In the Carroll School Undergraduate Dean's office, we are creating an inclusive and equitable environment for all of our students through new programs and initiatives.

Diversity in Business educates undergrads on a variety of career paths that they can pursue while reflecting on the skills and tools necessary to get there. We bring engaging employers to speak with students throughout the semester.

Career Bridge is a freshmen success seminar for first generation and high-financial aid students. Entering its fourth year, current students will be assigned an upperclassmen peer mentor to help them transition into campus. This will be the Bridge Builders Mentorship program.

Case competition team that won 3rd place at the National Diversity Case competition in Bloomington Indiana
